

# EXHIBIT B

# Activity controls

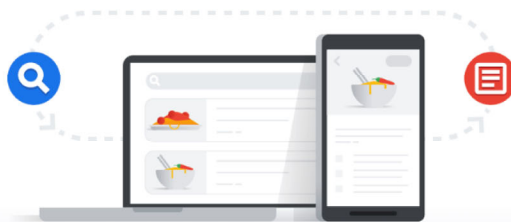

These settings help tailor your experiences across Google services when you use your Google Account.

Google always collects, uses, and processes data in accordance with the [Google Privacy Policy](#). For example, regardless of these settings, Google can collect and use data that is not associated with your account.

## Safer with Google

You control what data gets saved to your account. [Learn more](#)

## Web & App Activity

Gives you a more personalized experience and saves your activity on some Google services, including associated info like location, in your Web & App Activity in your Google Account. [Learn more about Web & App Activity](#)

On

On since November 10, 2025
